

Want to Know Where Your Specimens Are? Medical Courier Elite will show you in real time.

“Where are my drivers? Is the specimen going to make it on time?”

Medical specimens can be the difference between life and death for patients. Everyone involved wants to know that they’re delivered on time and accurately.

With Medical Courier Elite, you’ll know the status of all your specimen pickups and deliveries in real time, with fast and easy scheduling, management, courier locationing, route optimization, and delivery verification.

How It Works

Simple Scheduling

Schedule, manage, and efficiently prioritize your routine and time-sensitive pickups.

Real-Time Status Access

Quickly and easily view the status of pickups and deliveries, and the locations of your couriers.

Route Optimization

Find the most efficient daily route for couriers with step-by-step GPS instructions.

Delivery Verification

See when specimens are successfully delivered for real-time accountability.

An Easy To-Use Mobile Platform

Medical Courier Elite is an online and mobile solution that you can run and manage on Zebra’s TC56 mobile touch computer. It’s as easy as using your smartphone.

Benefits for Labs and Patients

- Virtually eliminate lost or misplaced specimens
- Create courier schedules based on client needs
- Get positive proof of delivery
- Efficiently manage time-sensitive pickups
- Improve your response time, accountability, and customer service
